Property Access Form

Dear Boise County Property Owner,

The Boise County Assessors office is required by law to physically inspect all properties in the county at least once every five years for the reappraisal process as mandated by the State. We conduct this mass appraisal in part, by visiting your property, taking updated photos, and checking measurements on exterior walls of the residence and any outbuildings. In order to continue this process we would like your permission to access the property.

When visiting your property the Appraiser will knock first to inform the resident of our purpose for being on the property, they will then proceed with measuring and taking photos. Boise County Appraisers are trained, certified in Mass Appraisal, and licensed through the State of Idaho.

Please fill out the attached form answering, "Yes" or "No" to access your property. Approving access will assure you the most accurate assessment on your property.

Feel free to call if you have any questions or concerns.

Thank you,

Chris J. Juszczak
Boise County Assessor

Complete this form and return to the Boise County Assessors Office
