EXHIBIT E

The Building Valuation Data (BVD) has been provided by the International Building Code Council. The Square Foot Construction Costs that Boise County is using has been prepared from the August 2015 version of the International Building Code. This is the national average for most buildings.

The BVD Table presented in "**EXHIBIT F,**" provides the information needed to calculate the Basic Building Permit Fees and if upgrade is requested, the Plan Review Fees.

The BVD Table enables one to estimate the value of the building being constructed for permitting purposes only and is not intended to be used in any other way than for aid in formulation of the Basic Building Permit and Plan Review Fees.

The Data in the Table is the National Average and does not take into account any Regional Modifier. The last Regional Modifier published for the State of Idaho was listed as .97% which was published in October 2003. Boise County has determined that this modifier will be included as part of the formula used to calculate Basic Building Permit and Plan Review Fees.

The Local Permit Fee Multiplier for Boise County is determined based on historical records, department budget, and percent of budget funded from Basic Building Permit Fees. The formula is as follows:

$$\text{Permit Fee Multiplier} = \frac{\text{Department Budget} \times \% \text{ Funded by Basic Permit Fee}}{\text{Total Annual Construction Value Previous Year}}$$

The Basic Permit Fee: A Basic Building Permit fee is determined by multiplying the Gross Area (square footage) X the Square Foot Construction Costs (from the BVD Table) X the Regional Modifier X the Local Modifier.

The Upgrade Building Fee: The applicant has the option to choose to upgrade the Building Permit, requiring the building to be constructed according to The International Building Code, inspected by Boise County Contract Inspectors, which enables the County to issue a Certificate of Occupancy upon completion of the construction project and provides record that the construction does meet code requirements.

If the upgrade is requested, a Plan Review Fee and Inspection fees will be charged at the time of application for the Building Permit.

The Plan Review Fee Schedule is based on the Square Footage Construction Cost as identified for the Basic Building Permit. For buildings with an estimated construction value of up to \$3,000.00, the fee is 0.0012 of the estimated value. For buildings between \$3,000.00 and \$6,000.00, the Plan Review fee is \$3,600 plus 0.0005 of the estimated value over \$3,000.00. Minimum Plan Review Fees are set at: residential - \$50.00 and commercial - \$100.00.

The Inspection Fee is based on four (4) inspections and is set as follows: Horseshoe Bend, Garden Valley, Centerville and Idaho City - \$200.00 per inspection (4 each @ \$200.00 = \$800.00); Lowman & Grandjean - \$225.00 per inspection (4 each @ \$ 225.00 = \$900.00).

If re-inspection is required, an additional fee will be assessed on a case by case basis.
