

# Boise County

Idaho City, Idaho 83631

## RESOLUTION

WHEREAS, The Banks-Lowman Highway needs to be upgraded due to being a substandard roadway which creates undue safety hazards to the school children, Boise County residents and other users of the roadway; and

WHEREAS, The Westerly five miles of existing road passes through a well established and heavily used Deer range and feeding area north of the Payette River; and

WHEREAS, the subdivided areas south of the river do not have adequate road access for the present lots platted;

NOW THEREFORE BE IT RESOLVED, that the Boise County Commissioners favor and support that Alternate No. 3 should be used for construction of the Banks-Lowman Highway as the best choice available;

BE IT FURTHER RESOLVED that all U. S. and State Government agencies concerned make a dedicated and cooperative effort to obtain ownership of private lands north of the Payette River for the establishment of a better winter range and feeding area between Sweet Creek and Little Gallagher Creek.
